Heavy Duty Protection Tubes

A32 Series

NOTES:

- Typically, the materials shown here are used for temperatures below 2,400 degrees Fahrenheit. For temperatures above this range contact factory.
- All of these protection tubes can be made with thermocouple elements installed and in various configurations for your convenience.
- Specify Part No. and length "L"
  Example: A32-5-48

For temperature sensors utilizing these protection tubes or for special design requirements contact Nanmac.
