Canister Heads F7-8380 Series

The Nanmac F7-8380 Series Canister Heads are small nickel-plated steel enclosures designed for applications where space is limited. These canister heads can be provided with 2, 3, or 4 terminals for both thermocouples and RTDs, up to #20 gauge (0.032 inch diameter) wire.

These units come equipped with an O-ring moisture seal and a neoprene cap grommet to help prevent water ingress. The F7-8380 Series comes with either, 1/4 or 1/8 inch NPT opening.

NOTES:

- O-Ring Seal
- 2, 3, or 4 Terminal
- Neoprene cap grommet comes standard
- Up to #20 gauge (0.032 inch) wire

Specifications

Part No.	Number of Terminals	Material	Description	Process Opening
